Course Title: AGRICULTURAL BIOLOGY (P)	
Course Number: 3066	
Course Description: Agriculture Biology is a laboratory science course designed for the college bound student that deals with the life functions and interrelationships of plants and animals. The course focuses on growth and reproduction, genetics, animal behavior, animal and plant taxonomy, nutrition, health and diseases, and the ecological relationship among plants, animals and humans. The student will be involved in an agriculture project as a "hands-on" activity. Leadership development via Future Farmers of America (FFA) is an integral part of the course.
