Course of Study Information Page

Course Title: DIGITAL PHOTOGRAPHY	
Course Number: 2089	
Course Description: photographic imaging is structured to acquaint the student with basic photography. Students will be given opportunities to extend their knowledge in the art form of photography. Students will become familiar with and gain an understanding of different cameras, lens, and their uses. Students will create photographs that illustrate their knowledge in the Elements of Arts and Principles of Design. Topics of study are not limited to but will include: the history of photography, the significance of the photograph composition, and the history of the camera. Class projects will be done in the digital format, but both digital and film photography and equipment will be discussed. This class may be taken for a second year, as Photographic Imaging II.	
Length of Course	One Year
Grade level	9-12
Number of credits	5 credits/semester
Additional Credit Information:	<input checked="" type="checkbox"/> CSU/UC "a-g" requirements <input type="checkbox"/> Weighted grade points <input type="checkbox"/> Dual credit with community college
